

## BASECOAT THINNER

*Product intended for professional use.*

### PRODUCT RANGE:

43 147	Basecoat Thinner 500 ml
43 231	Basecoat Thinner 5L

### CHARACTERISTICS:

A high-quality thinner being a mixture of organic solvents. It is intended for thinning basecoats used during renovation painting of passenger cars and other components coated with a conventional basecoat. It combines very well with most solvent-thinned basecoats available on the market. It ensures the correct viscosity of the product during spraying and its proper drying.

### PHYSICAL AND CHEMICAL PROPERTIES:

Colourless liquid with an aromatic, sweet smell.

### APPLICATIONS:

- metallic and non-metallic solvent-thinned basecoats

### METHOD OF USE:

Products should be thinned according to the information contained in the technical data sheets of the individual products.

### STORAGE:

Store in original, tightly closed containers, in a dry, cool place, away from sources of heat and ignition, at a temperature from 5 to 20°C. Do not expose to direct moisture and sunlight.

### WARRANTY PERIOD:

The warranty period is given on the product label.

### HEALTH & SAFETY RECOMMENDATIONS:

Product safety data sheet and applicable health and safety regulations for working with chemical agents.

*The information contained in this sheet has been developed based on our knowledge and practice. However, no individual product properties can be guaranteed under different conditions of use beyond our control. Therefore, we cannot accept full responsibility for the results obtained in specific conditions of use. It is necessary to test the application of the product on a small area, due to the potential differences in the product performance depending on the substrate on which it is applied. We guarantee proper quality when used in accordance with the instructions contained in this Technical Data Sheet.*
